Cost: \$550_{+GST}

CMV-1

VACUUM BAGGING TECHNIQUES RESIN INFUSION PROCESSES

- Course Duration:** The duration for this course is by arrangement with our Training Consultant. This could be a short course of two (2) full days, or scheduled evenings over a period of weeks, determined by the availability of both the students and trainer.
- Group Size:** Limited to eight (8) students to ensure full participation and safe working.
- Who the Course is for:** This course is for people making a start in the composites industry, and those wanting to formalise and expand their on-the-job knowledge and experience in vacuum processes, techniques and materials. It may also be used as a lead-in to the Trade Apprenticeship of 'Composites Technician'.
- Course Objective:** On successful completion of this course you will have the knowledge and skills and practical experience in vacuum-bagging techniques (*this is an intensive hands-on course*).
- Course Program:**
- Consumables and hardware.
 - Resins and reinforcements.
 - Vacuum pump requirements.
 - Vacuum process, set up and operation, including wet bagging and resin infusion methods with glass and carbon fibre.
- Course Co-ordinators:** Dean Margetts at PARTEC.
- Certificates:** A record of professional development will be awarded after completion.
- Course Fee:** **\$550** + GST Course fee includes all materials and notes.
- Course Venue:** PARTEC Composites Training Centre Townsville:
Unit 1 Civil Court, 5 Civil Road, Garbutt, QLD 4814.
- Registrations:** Online expressions of interest can be completed by visiting:
www.partec.qld.edu.au
In the Plastic Trade Short Courses Menu
Composites (FRP) Courses
- Enquiries can be made by calling Dean directly on 0417 711 683, or at the office on (07) 3849 7878.
